

# Lab Technician

Sentek Instrument LLC is seeking a full-time lab technician to support our R&D and product manufacturing.

## Position Duties

- Assembling fiber optic/electronic instruments;
- Operating and maintaining fiber sensor manufacturing systems;
- Calibrating and testing sensor systems;
- Traveling occasionally for domestic and international field demonstrations and tests;
- Inventory management;
- Conducting ad-hoc tasks assigned by engineers.

## Qualifications

- At least an associate degree in electronics, optics or other relevant engineering discipline.
- Detailed and organized with patience;
- Good at following instructions;
- Quick to pick up new knowledge and skills;
- Strong working ethics.

Sentek Instrument LLC is a small yet rapidly growing high-tech company with its focus on developing and manufacturing unique sensors and measurement instruments. They offer single-point or distributed measurement of pressure, temperature, strain and acoustic wave with unmatched performance. Some of our target markets include but are not limited to the perimeter monitoring, aerospace, oil/gas, electric power and structural health monitoring industries.

Sentek operates in the Virginia Tech Corporate Research Center, located in beautiful Blacksburg, Virginia. People at Sentek enjoy not only great opportunities for professional growth in the vibrant work environment but also the high quality college town style of life in Blacksburg with their family. We offer a competitive compensation package including PTO, health insurance and retirement plan. Interested candidates should send your resume to [hr@sentekinstrument.com](mailto:hr@sentekinstrument.com).
